

# 9-000-SRK Škoda Octavia II Roof Rail Lightbar Mount

# HAZTEC

GLOBAL WARNING

Thank you for purchasing this Haztec product. Before proceeding with installation, it is essential to read and understand this instruction booklet.

- This Lightbar mount is designed specifically for use on the Škoda Octavia II equipped with original equipment manufacturer roof rails
- The product should only be installed by persons competent in vehicle installations
- Only use the fixings provided
- **DO NOT** attempt to alter or modify the product in any way

## Installations Instructions:

### IMPORTANT!

- **DO NOT** attempt to mount the Lightbar with brackets located in the plastic end pieces, they must engage with the aluminium extrusion
- Attach each of the brackets to the Lightbar by sliding the channel nuts 'G' into the extrusion
- Place brackets 'A' & 'B' around the roof rail ensuring that the rubber gasket 'C' is fitted to prevent damage to the assembly
- Loosely tighten the 4 nuts 'D' to hold the assembly in place
- Install a clamping device 'F' (*not supplied*) as shown and tighten to fully compress the assembly
- Fully tighten nuts 'D' to secure the roof rail to the Lightbar and fit the protective caps 'E'
- Release and remove the clamp
- Check all fixtures to ensure that they are tight before attempting to use the vehicle
